Nursery Year Group and Staff Nursery

Ms Debernardis, Ms Oteng and Mrs Impey

R.W.I

This term we will continue to learn the sounds we need to read and write and we will begin to blend them to read CVC words like cat, dog etc.

We will be practising a lot of oral blending so we can say exactly what "Fred" is telling us. E.g.: d-o-g is dog and c-a-t is cat.

Maths

Children in Nursery will learn how to count to 20 and back from 10 through song and rhymes.

They will be able to recognise all numbers to 10 and say which number is one more or one less than a given number.

They will use language for measuring capacity, time and length.

They will learn the names of 2D and 3D shapes

Physical development

Children will continue to learn how to look after themselves including how to get dressed or undressed.

They will learn to use tools safely in their outdoor play and be aware of the risks they take when using different pieces of apparatus.

They will also be working on holding the

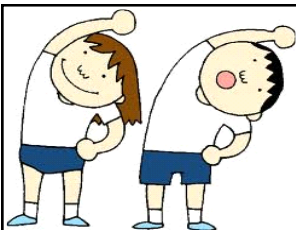

R.E.

For RE lessons we will continue with **Come and See** as our scheme of work.

Good News—Passing on the Good News of Jesus

Friends—Friends of Jesus

PE

In PE lessons we will be exploring large and small movements and using large and small PE equipment to develop gross motor skills. This will in turn help us with our fine motor skills and our handwriting.

Children will learn about the importance of exercise and a healthy diet for a healthy lifestyle.

Art & Design

Children will be looking at plants and animals and how things grow or decay.

They will represent this through drawings, painting, collage, printing and other media.

We will also be working with self

Curriculum Newsletter

Understanding of the World

For Understanding of the World we will be learning about people who help us in the community; we hope to receive visits from some of them so we can ask them a few questions. If any of you parents would like to come and talk to us about how you help in our community please talk to us and we can arrange a suitable time.

In the second part of the summer term we are going to Space! Exploring planets, sun, moon, ways to travel and all the fascinating things that it entails.

Computing

Children will continue to interact with technology on a regular basis. We will learn how computers can help us learn by looking up things about space and sharing the Moon landing clips. We will also use Bee bots to learn how to programme

PSED

Children will be encouraged to role play with other children (in small groups) showing they can take turns, share toys and listen and respond to others.

They will also try to reflect on how they help the community.

Helping your child at home

Try to use any opportunity to encourage children to count (steps, cups, coins, anything!) and don't forget to talk about the books you share with them. Ask them about the characters and what they liked best about the book.

Most importantly, help them to become more independent, ask them to dress or undress themselves and to use their words when asking for things (avoid pointing etc). Keep practising how to do up coats and put on shoes by themselves.

Tales Toolkit

Every Friday when you drop your child, you are invited to stay for the first 15 minutes to learn how we make up our own stories in the Nursery.

You will be able to observe the class teacher and join in as well. You don't have to book or even come in every Friday ... it is an open invitation for when you are able to join us.
